1. In selecting vegetables for exhibition, choose such specimens that would bring the highest market price. Do not select the largest, select medium size specimens. Do not mix varieties.
2. The following factors are generally considered by the judges:
  - a. Trueness to variety, type. Pick the specimens from one variety.
  - b. Uniformity in size, shape and color.
  - c. Select a perfect specimen. Then select others as similar to it as possible. Never mix specimens of different maturity.
  - d. Protect from dirt, disease, infection and mechanical damage.
  - e. Condition and maturity. Be sure exhibits are of high quality.
  - f. Potatoes should not be washed. Remove soil with a soft cloth or brush.
  - g. Tomatoes should have stems removed. Carrots, beets, etc., should have tops (leaves) removed from vegetables leaving about (2) inches of stem.
3. Read premium material. Carefully follow all rules and regulations. If an entry calls for five specimens, exhibit that number; do not enter four or six. Your exhibit will be disqualified for having a number of specimens other than that stipulated.
4. All vegetable entries must be grown by amateurs.
5. All general rules must be followed and the judge has the final decision in all exhibits. If a judge decides an entry is not worthy of a ribbon - NO RIBBON WILL BE AWARDED.
6. No early removal of exhibits will be allowed. If you can't pick up on Saturday night, please do not enter. After 12:00 Midnight the entry becomes fair property. Premium will be forfeited for early removal.
7. The Fair Committee will accept a stamped, self-addressed envelope for payment of premiums.
